- For this example, we will export Nature #3207H

Highlight the program to be exported to PBCore and click F-8, or double click on the program, to open up the Program Detail screen

Once in the Program Detail:
To export information to PBCore – navigate to Tools/PBCore Export; or use the keyboard shortcut of Alt+P

This dialogue box will open
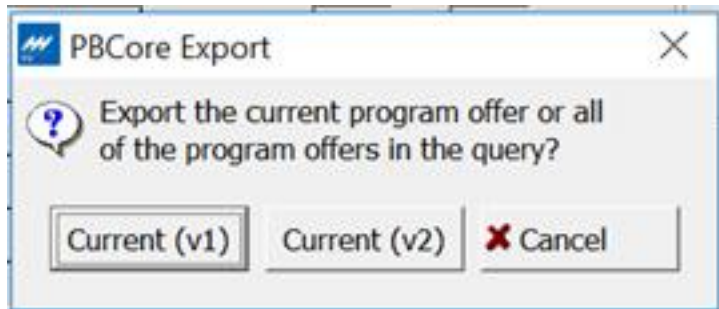

*Please note – ProTrack allows users to save the export as either PBCore Version 1 (v1) or Version (v2).  For information about the difference between versions, visit www.PBCore.org Files are saved as an 'xml' file to a local drive with a naming convention of NOLA_episode#_program type (HDBA, SDBA, HDUE43 etc.)
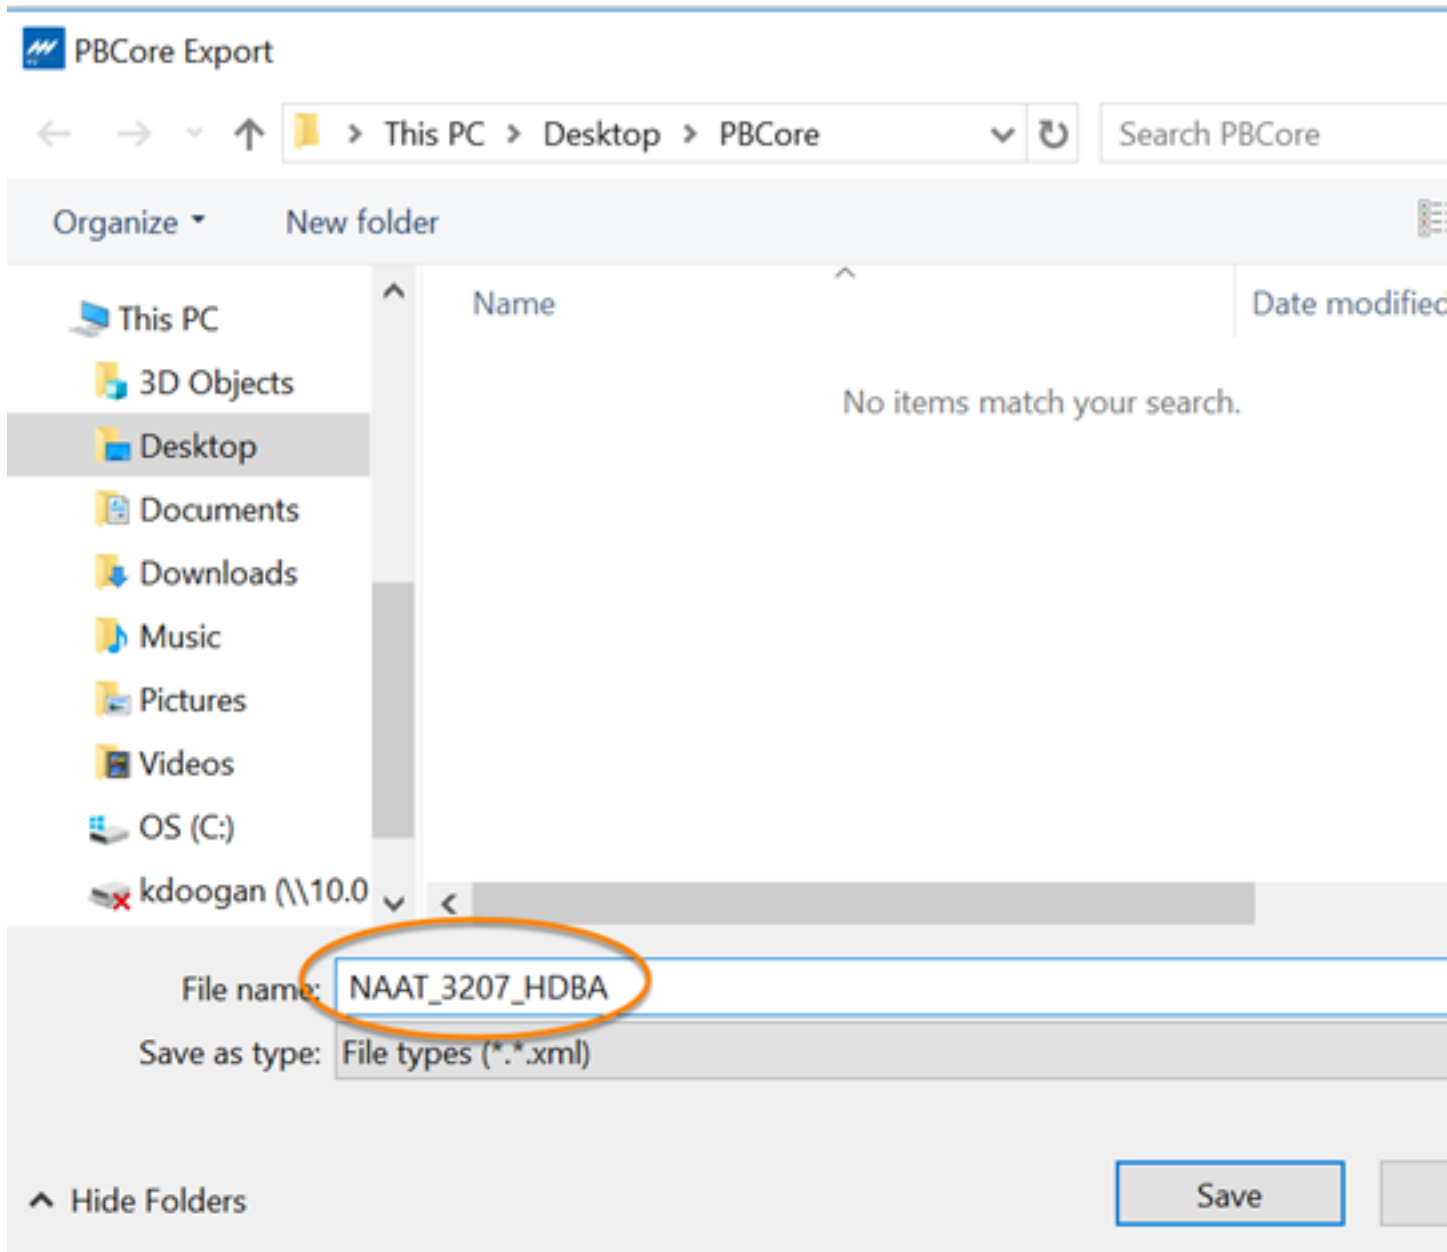

Export file looks like this and includes all the metadata available in ProTrack for this specific episode
